Abstract:

The authors of this paper have thoroughly and critically analysed the book of a renowned pashtoon politician Mahmood Khan Achakzai, titled as "Da Quette Da Wowam October Razam". As the author of the said book has not fixed it into a specific literary genre hence writers have also not been agreed on its specific literary position yet. The authors of this paper, keeping the discussions and arguments of the renowned writer, they have specified it to a Russian fictional genre Ochurk which was first named by Ibrahim Atae but with slight changes. Atae called it Ochurk like fictional genre (Dastan)

Key words: literary genre, Mahmood Khan Achakzai, (Dastan), Da Quette Da Wowam October Razam.
