Abstract:

Imagery plays an important role in the creation and comprehension of poetry. The poet portrays different actions, feelings and thoughts in his words through imagery. Such poetic process helps the human senses to be dynamic and eventually an artistic amusement takes place on the reader's side. In this article, the writer explored the different sources which take part in the creation of poetic imagery while presenting an analytical study of some selected pieces of English poetry.

Key words: literature, terms, poetic, imaging, English poetry.
